

Portrait of Arthur Hallam.

Of a recently published portrait of Arthur Hallam, immortalized by Tennyson's "In Memoriam," a writer says: "It dates from the prephotographic days, of course, but it does not show signs of the flattery so common in portraits of that time. The face that bore those 'azure orbits' heavenly wise, those 'ethereal eyes' is pictured as rather gloomy, rather lowering, that of a somewhat heavy youth. This head was Tennyson's hostage to heaven throughout the stress of philosophic doubt, and was so half a century later, when the aged poet died in the faith that his boy friend was 'not dead but alive.'"

"Busy all the time in" DOUGH.

Made in Utah.

BACK OF THE ATKINS SAW

Two centuries of patient and conscientious effort to produce the best saw in the world. Ten generations of blood and brains. The largest plant in the world exclusively devoted to saw-making, employing many hundreds of high-class, high-priced craftsmen and equipped with costly special machinery. A world-wide business aggregating many millions of dollars every year. A reputation built up through two centuries of steady growth, valued more highly than any other asset of this great institution. The guaranty of this Company, which is respected the world over. We make all types and sizes of saws, but only one grade—the best. Atkins Saws, Cori Knives, Perfection Floor Scrapers, etc., are sold by all good hardware dealers. Catalogue on request. E. C. ATKINS & CO., Inc. Largest Saw Manufacturers in the World. Factory and Executive Office, Indianapolis, Indiana. Branches: New York, Chicago, Minneapolis, Portland, Oregon, Seattle, San Francisco, Memphis, Atlanta and Toronto, Canada. Accept no Substitute—Insist on the Atkins Brand. SOLD BY GOOD DEALERS EVERYWHERE.

HE KNEW TOO MUCH WAS PUT OUT OF WAY

Young Missourian Supposed to Have Been Killed in Oregon by Man Who Robbed Forest Grove Bank.

Kansas City.—R. N. Snyder, a well known financier of New York, received a telegram from Portland, Ore., Friday indicating that his son, Carey Snyder, had been murdered by a man suspected of a bank robbery concerning which young Snyder was supposed to know too much. The bank robbed was at Forest Grove, Ore., and the authorities at Forest Grove and Portland notified the police of this city that they suspected Carey Snyder, "Pinky" Blitz and George Perry of committing the robbery. Blitz and Perry, who are cousins, are notorious police characters here, and Snyder had been involved in serious trouble.

WANTS CASTRO TO APOLOGIZE.

France Will Send Warships to Venezuela to Avenge M. Taigny.

Washington.—It is learned here that France will demand an immediate apology of President Castro for what is regarded as his insulting and unwarranted treatment of M. Taigny, the French charge d'affaires. Three French warships are within striking distance of the Venezuelan coast, and two more, it has been reported from Paris, are on the way to West Indian waters. What form the displeasure of France will take has been tentatively decided and the details of the programme will be communicated confidentially to the Washington government. Not until President Castro has felt the form of French dissatisfaction will the world know whether a peaceful blockade is to be established or whether a custom house will be seized. Should the seizure of custom houses along the coast be decided on it is not unlikely that in order to disburse the anxiety of the European powers lest the payment of their claims is to be stopped France may ask some outside neutral power to act as receiver for the custom house returns until President Castro has apologized and given assurance of his intention to resume diplomatic relations with France.

Wright Goes to Japan.

Washington.—Luke E. Wright, governor of the Philippines, has been named by the president as the first American ambassador to Japan. This announcement was made Friday at the war department. Judge Ide, governor of the Philippine islands, has asked to be relieved from further duty, June 1 next, after six years of faithful and efficient service as commissioner and vice governor in these islands. The president considers that he is entitled to the dignity and honor of the governor generalship during that period. Upon Governor Ide's retirement, General James E. Smith, now a member of the commission, justice of the Philippine supreme court, will succeed him, and General Smith's name will be sent to the senate after the confirmation of Governor Ide.

INCREASE IN WAGES.

United Mine Workers Expect the Old Scale Will Be Restored.

Indianapolis.—An increase in the wages of coal miners equivalent to the reduction accepted by the United Mine Workers in the joint wage conference of 1904, is the proposition which the operators are expected to defend in the joint conference to convene in Indianapolis upon the adjournment of the present annual convention of the United Mine Workers.

China Growing Wiser.

Peking.—It is now proposed by the Chinese government that all foreign settlements in China to be opened in the future must differ from the old treaty ports. It is pointed out that these treaty ports are practically for the benefit of the Chinese and that therefore they are able to dispute the Chinese claims for damages, as was instanced in the riots at Shanghai when China was barred from maintaining troops to keep order. It is the plan of the government generally to restrict the privileges of foreigners.

Orchard in the Penitentiary.

Boise, Ida.—Sheriff Nichols of Canyon county changed his mind on Thursday and Harry Orchard, the man who stands charged with the assassination of former Governor Steunenberg, was hustled from Caldwell to Boise and lodged in a cell in the penitentiary. The reason for the sudden change of front has not been made public, but it is believed it arose from fear that an attempt would be made to rescue the prisoner or to make away with him to prevent the possibility of his making a confession.

Charges That Shippers Were Robbed at Kansas City Stock Yards.

Kansas City.—Evidence of the existence at the stock yards in this city of an organization of men to defraud shippers by a system of overweights and underweights was disclosed in the trial here of Jay J. Miller, a trader, charged with perjury. Miller's trial is the first in the cases of eleven weighmasters and others at the stock yards, indicted last year following an investigation by a committee of the Traders' Exchange.

Manhattan Rush Still On.

Goldfield, Nev.—The rush into Manhattan continues. A great whirl of snow has filled the valley for the past few days, but despite the weather conditions some two hundred leasers have been at work. It is reported that United States geological surveys have been ordered to the new field. Some of the ore is mica schist and part limestone. The mica schist has true fissure veins in which the vein water is telegraph carrying gold values.

Wall of Water Rushed Down Upon Town.

Evanson, Wyo.—The lower portion of Evanson is flooded by water from the Union Pacific low dam above the city, which went out at 10 o'clock Thursday. No lives have been lost, but people were compelled to flee from their homes and considerable damage was done to property. The great wall of water and broken ice rushed down the canyon, carrying trees, rocks and debris. The damage is estimated at \$200,000.

ATTEMPTED TO POISON PEABODY

Entire Family is Poisoned at Breakfast Table, But All Will Recover.

Ex-Governor of Colorado and His Wife and Daughter Have Narrow Escape—Said to Have Been Threatened With Fate of Steunenberg.

Canon City, Colo.—Former Governor James H. Peabody, his wife and their daughter were poisoned by food eaten at breakfast Thursday morning, and the daughter, Miss Cora Peabody, is in a dangerous condition as a result. The governor and Mrs. Peabody, although quite ill for several hours, recovered sufficiently to devote their attention to the daughter. Physicians are in attendance upon the young woman and unless a change for the worse comes they believe she will escape serious consequences.

An air of mystery surrounds the affair. Enough was gleaned from friends of the family, however, to show that there is a belief that an attempt was made to destroy the family by poison. An intimate friend of the Peabodys said that several letters had been received by the former governor within the past week or two calling his attention to the manner of the death of former Governor Steunenberg of Idaho, and threatening him with a similar fate.

Referring to the incident his family went through Governor Peabody said: "I do not want to say here I think the responsibility lies until the results of the investigations now being made are known."

Mr. Peabody was governor of Colorado during the labor troubles at Cripple Creek and Telluride, when troops took possession of the two camps, and during which time the Independence depot dynamite disaster happened.

BUTCHERED AS THEY SLEPT.

Latest Outrages in New Guinea and North Australia.

Victoria, B. C.—Advices of massacres by the blacks in New Guinea and North Australia were received by the steamer Moana. In New Guinea a party of warriors made a raid on the village of Eldir, thirty miles from the capital, Port Moresby, and killed thirty-three of the inhabitants, who were sleeping. The bodies were much mutilated. The village was looted and destroyed, anything of value being carried off. The village constable escaped, though his loin cloth was pierced by spears thrown at him, and after hiding in the bush for some days with two other survivors he reported at Port Moresby to report the massacre, and a force of armed constables were sent to punish the raiders.

The other massacre at Port Keats, involved the killing by blacks of six white men and three natives. The men were killed with tomahawks while sleeping.

LIVES SNUFFED OUT.

Eighteen Miners Meet Death in Dust Explosion.

Charleston, W. Va.—Eighteen men are believed to have been killed in a terrific explosion in one of the mines of the Detroit & Kanawha Coal company at Detroit on Paint Creek, this county, twenty-five miles from here. The explosion occurred at 12:30 o'clock. Had it been either before or after the noon hour the death list would have been still more appalling, as hundreds of men would have been killed. The force of the explosion was so great that the hills trembled. Tons of wreckage and debris were hurled from the mouth of the mine, blocking the entrance and making the work of rescue difficult.

Private Session at Moroccan Conference.

Algiers.—The delegates to the Moroccan conference held a private session lasting two hours Thursday afternoon. The session resulted practically in an agreement on the main lines of a plan for the repression of contraband entering Morocco. It was feared that this question of contraband might lead to Franco-German tension as to who would carry out the repressive measures proposed, but this situation happily appears to have been averted.

Beef Packers in Court.

Chicago.—The trial of the special pleas of J. Ogden Armour and the other packers and attorneys now under indictment for conspiracy to restrain trade and commerce were opened Thursday before Judge Humphrey in the United States district court. Among the defendants in court at the opening of the case were J. Ogden Armour, Charles W. Armour, T. J. Connors, Edward Morris, Charles F. Swift, Edward Swift, Edward Cudaby and A. H. Veeder.

NO MAN IS STRONGER THAN HIS STOMACH.

Let the greatest athletes have dyspepsia and his muscles would soon fail. Physical strength is derived from food. If a man has insufficient food he loses strength. If he has no food he dies. Food is converted into nutrition through the stomach and bowels. It depends on the strength of the stomach to what extent food is digested and assimilated. People can die of starvation who have abundant food to eat, when the stomach and its associated organs of digestion and nutrition do not perform their duty. Thus the stomach is really the vital organ of the body. If the stomach is "weak" the body will be weak also, because it is upon the stomach the body relies for its strength. And as the body, considered as a whole, is made up of its several members and organs, so the weakness of the body as a whole will be found in all the organs—heart, liver, kidneys, etc. The liver will be torpid and inactive, giving rise to biliousness, loss of appetite, weak nerves, feeble or irregular action of heart, palpitation, dizziness, headache, backache and kindred disturbances and weakness.

Mr. Louis Pare, of Quebec, writes: "For years after my health began to fail, my head grew dizzy, eyes pained, and my stomach was sore all the time, while everything I would eat would seem to lie heavy like lead on my stomach. The doctors claimed that it was sympathetic trouble due to dyspepsia, and prescribed for me, and although I took their medicines regularly yet I felt no better. My wife advised me to try Dr. Pierce's Golden Medical Discovery—and stop taking the doctors' medicine. She bought me a bottle and we soon found that I began to improve, so I kept up the treatment. I look on food, my stomach became normal, the digestive organs worked perfectly and I soon began to look like a different person. I can never cease to be grateful for what your medicine has done for me and I certainly give it highest praise. Only be warned by its popularity that the dealer taking inferior substitutes for Dr. Pierce's medicines, recommended to be 'just as good.' To gain knowledge of your own body—in sickness and health—send for the People's Common Sense Medical Adviser. A book of 1008 pages. Send 21 one-cent stamps for paper-covered, or 31 stamps for cloth-bound copy. Address Dr. R. V. Pierce, 663 Main Street, Buffalo, N. Y."

Does This Fool the Baby?

The wife of one of our gentlemen friends makes him wear tucks in his night gown, trimmed with pink ribbon, so that the baby won't know the difference when he walks the floor with it at night.—Cavalier (N. D.) Republican.

Ask Your Druggist for Allen's Foot-Ease.

"I tried ALLEN'S FOOT-EASE recently and have just bought another supply. It has cured my corns, and the hot, burning itching sensation in my feet which was almost unbearable, and I would not be without it now."—Mrs. W. J. Walker, Camden, N. J. Sold by all Druggists, etc.

An Impossible Task.

The artificial production of emeralds is declared to be impossible by Prof. Verneuil, the first creator of rubies.

TO CURE A COLD IN ONE DAY.

Take LAXATIVE BROMO Quinine Tablets. Drug stores refund money if it fails to cure. E. W. GROVE'S signature is on each box. 25c.

One of London's Troubles.

"The clerk element is one of the great troubles of London," says the lord mayor of London. "Clerks are not much more likely to get employment in the colonies than here. The whole world is overdone with clerical labor."

Mrs. Winslow's Soothing Syrup.

For children teething, softens the gums, reduces inflammation, allays pain, cures wind colic. 25c a bottle.

CUSTOMS OF THE CANNIBALS.

Tribes of Savages Observe Traditions Among Themselves.

"Even among the savages of French Africa, who eat human flesh, there are differences," said Paul Pucci, a young Italian traveler, at the Raleigh. "Some while ago, when exploring that country, I learned a good bit about the ways of the various tribes. In a majority of them cannibalism is indulged only when the bodies are those of prisoners taken in battle. It is all right to eat persons who belong to hostile clans, but it would be a gross violation of tradition and the custom of the land to feast upon friends or even upon members of the same tribe. This delicacy of sentiment, however, is not universal, and in one tribe in particular, where I noted the absence of any old persons, I learned that it was the proper thing to add the aged inhabitants to the local food supply. This confined the population to the young and brawny, for at the first signs of decrepitude the boiling pot was called into requisition."—Washington Post.

An Absent-Minded Adventurer.

There are none among the attendants of the Second Advent church in Marblehead who are more steadfast in the faith than Mrs. Nancy Jameson, whose remarks sometimes, however, belie her expectations.

One day a friend, who was in the antique furniture business, called on her, and she thought it a good time to warn him to prepare for the day of judgment.

"You ought to be prepared," said she, "for all signs point to next week as the appointed time."

"Well, Nancy," said the dealer, "if that's the case, don't you want to sell me your old chairs?"

"Oh, no," she said; "John's going to fix them up next week."—Exchange.

Suicide in Europe.

It is estimated that 70,000 people take their own lives every year in Europe, 11,000 of which fall to Germany. During the last ten years the number of self-murders in Germany has been 113,545. This is almost three times as many as there were soldiers killed outright in the Franco-Prussian war in 1870-71.

WAY PIPE SHOULD BE LIGHTED.

Subject of Vastly More Importance Than Appears.

There has been a little newspaper discussion recently on the subject of "How to Light a Pipe." This may seem to the feminine mind, a trivial matter, and quite beneath the notice of any dignified journal.

How wrong! For a pipe lit with a pipe lighter, and a pipe lit with a match is a man made testy, and a man made testy is a man looking out for trouble, and a man looking out for trouble is a man finding trouble, and a man finding trouble is a woman in tears, and a woman in tears is the last word in human dreariness. Never let us be ashamed to inquire, then, how a pipe may be lit with the utmost satisfaction to the smoker.

One paper, I see, recommends spiffs. That is good, but the spiffs, of course, must be wooden ones.

Another paper retorts that spiffs are of no sort of use to the man in the train. This is the kind of frightfully true thing that causes a hush in the noisiest assembly. What, then, should the man in the train do?

I will tell him. He should carry a box of wooden matches, and he should use exactly two matches to light his pipe. The first one will dry the tobacco on the surface, and the second one will produce the vivid, even glow beloved of smokers.

The man, by the way, who lights his pipe with a wax match is a bad man right from the start. Never trust him, dear friend.—Sketch.

Salt and Civilization.

Salt has had much influence in shaping the civilization and exploration of the world. It is believed by many that the oldest trade routes were created for the salt trade. This was certainly the case with the caravan routes in Libya and the Sahara, while the mines of North India were the center of a large trade before the time of Alexander. Salt, too, has played a considerable part in the distribution of man. He was forced to migrate to places where it could be obtained. This brought him to the seashore, where he gained his ideas of maritime commerce. Lastly, the preservative effects of salt on flesh food made long oceanic voyages possible and thus opened up the world to commerce and civilization.

ALL SICK WOMEN SHOULD READ MRS. FOX'S LETTER

In All Parts of the United States Lydia E. Pinkham's Vegetable Compound Has Effectuated Similar Cures.

Many wonderful cures of female ills are continually coming to light which have been brought about by Lydia E. Pinkham's Vegetable Compound, and

through the advice of Mrs. Pinkham, of Lynn, Mass., which is given to sick women absolutely free of charge.

The present Mrs. Pinkham has for twenty-five years made a study of the ills of her sex; she has consulted with and advised thousands of suffering women, who to-day owe not only their health, but even life to her helpful advice.

Mrs. Fannie D. Fox, of 7 Chestnut Street, Bradford, Pa., writes:

Dear Mrs. Pinkham:

"I suffered for a long time with female trouble, and finally was told by my physician that I had a tumor. I did not want to submit to an operation, so wrote you for advice. I received your letter and did as you told me, and to-day I am completely cured. My doctor says the tumor has disappeared, and I am once more a well woman. I believe Lydia E. Pinkham's Vegetable Compound is the best medicine in the world."

The testimonials which we are constantly publishing from grateful women establish beyond a doubt the power of Lydia E. Pinkham's Vegetable Compound to conquer female diseases.

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. She asks nothing in return for her advice. It is absolutely free, and to thousands of women has proved to be more precious than gold.

OLD PLACE WAS GOOD ENOUGH.

Comprehensive Reason Why Citizen Came Home.

"Squire" Lord, of local fame in Effingham, N. H., fifty years ago, had accumulated, by all sorts of methods, a fortune for the times and place. Keeping the country store, being practically the "bank" of those parts and increasing wealth beyond expenditure had nourished an ambition to live in a place larger and with more social opportunities than the little village afforded. So he packed up one autumn, took a house in Portland, which was the town of the world to country people then, and with his family started in to cut a dash.

To his chagrin, he found he was one of many in that place, and not a scapace or bow was coming his way. Christmas saw him back, bag and baggage, in Effingham, and that evening in his store, to the inquiry of one of the village loafers, "Why'd ye come back, squire, 'fore ye'd calculated?" he replied:

"I've had enough of that place. Yer see, I'd rather be a king among hogs than a hog among kings."

Odd Recurrence of Digits.

"The most remarkable arrangement of numbers that I know of," said a local business college man who takes a delight in solving curious problems and digging up mathematical oddities, "is the combination of the six figures of 142,857. Multiply this number by 2 and the answer is 285,714, by 3 and the answer is 428,571, by 4 and the answer is 571,428, by 5 and the answer is 714,285, by 6 and the answer is 857,142. Each answer contains exactly the same digits as the original sum, and to cap the climax, multiply the number by 7 and up comes the answer 999,999."

900 DROPS

LOST EYESIGHT Through Coffee Drinking

Some people question the statements that coffee hurts the delicate nerves of the body. Personal experience with thousands proves the general statement true and physicians have records of great numbers of cases that add to the testimony.

The following is from the Rockford, Ill. Register-Gazette:

Dr. William Langhorst of Aurora has been treating one of the queerest cases of lost eyesight ever in history. The patient is O. A. Leach of Beach county, and in the last four months he had doctored with all of the specialists about the country and has at last returned home with the fact impressed on his mind that his case is incurable. A portion of the optic nerve has been ruined, rendering his sight so limited that he is unable to see anything before him, but he can see plainly by anything at the side of him. There have been but few cases of its kind before, and they have been caused by whisky or tobacco. Leach has never used either, but has been a great coffee drinker, and the specialists have decided that the case has been caused by this. Leach stated himself that for several years he had drunk three cups of coffee for breakfast, two at noon and one at night. According to the records of the specialists of this country this is the first case ever caused by the use of coffee.

The nerve is ruined beyond aid and his case is incurable. The fact that makes the case a queer one is that the sight forward has been lost and the side sight has been retained. According to the doctor's statement, the young man will have to give up coffee or the rest of his sight will follow and the entire nerve be ruined.

Register-Gazette.

POSTUM

Let it be remembered that the eyes may be attacked in one case and the stomach in another, while in others it may be kidneys, heart, bowels or general nervous prostration. The remedy is obvious and should be adopted before too late.

Quit coffee, if you show incipient disease.

It is easy if one can have well-boiled Postum Food Coffee to serve for the hot morning beverage. The withdrawal of the old kind of coffee that is doing the harm and the supply of the elements in the Postum which Nature uses to rebuild the broken down nerve cells, insures a quick return to the old joy of strength and health, and it's well worth while to be able again to "do things" and feel well. There's a reason for
